# HX | MX Series

Swingaway Augers

#### **REDUCED MAINTENANCE**

The HX and MX Series are easy to service and maintain with six accessible service points to the u-joints, chains, bearings, and gearboxes along with external grease zerks on the u-joint end caps. With inspection of tool free areas that include the hopper chain cover, neck transition, boot clean-out and swing head cover, these features deliver quick maintenance.

#### **CORROSION RESISTANT GALVANIZATION**

Hutchinson | Mayrath uses a specialized corrosion resistant galvanization on tube housings, for lasting protection and clean finish. All other parts have a premium powder coat paint for long lasting protection.

#### **TRUSSING & FRAME**

The HX and MX Series feature a scissor lift frame and cross members to maximize reach and reduce swaying while the auger is in use. Hutchinson | Mayrath uses commercial strength cable or steel trussing, depending on the model, allowing the auger to be easily aligned and placed into position without swaying or bowing during use.

#### **HOPPER & HOPPER LIFT ARM**

The hopper lift arm and hopper can be positioned on the left or right hand side of the auger to easily unload grain from either side. The hopper features dual flighting that allows the grain to be directed to the center of the hopper, optimizing grain flow to the tapered boot – maximizing capacity and minimizing unload time. The 6" rubber extensions along the edge of the hopper prevents grain from splashing.

#### **POWER SWING - HYDRAULIC OR ELECTRIC REMOTE**

- Two-wheel drive design and large lug tires for maximum traction and balance
- Mounts easily to low profile hopper
- Minimal height adjustment needed when using different heights
- · Redesigned scissor lift to adjust wheel traction

#### HYDRAULIC POWER SWING

- Hydraulic drive moves the swing hopper
- Convenient tube mounted control valve
- Complete with hydraulic hoses

#### REMOTE 12V ELECTRIC POWER SWING

- Heavy-duty 12V motor
- Position the hopper from the cab of your truck
- Large "easy grip" remote
- Secondary control on the tube if remote is not available

## **WORKING LIGHT KITS**

LED working lights provide enhanced lighting conditions at the hopper, axle, and tube discharge to the bin during operation in low-light conditions.

### **RIGHT-ANGLE DRIVE**

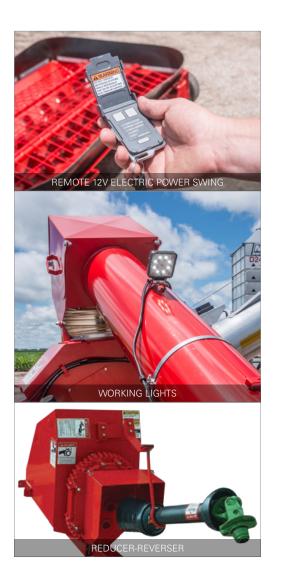

The right-angle drive positions the auger at a 90-degree angle from the truck while working in small spaces.

# REDUCER-REVERSER

The reducer feature lowers the speed of tractors with 1,000 RMP to 540 RPM, which is required for auger operations.

The reversing feature allows the flight direction to reverse for a quick and easy cleanout and saves time when moving from one commodity to the next. The reverser kit is also available on its own without the speed reducer.

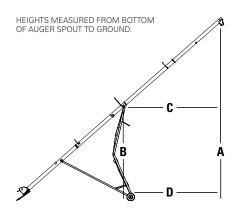

## HX100 | MX100 AUGER SPECIFICATIONS

	10-63	10-73	10-83						
TUBING GAUGE		12 GA							
TUBE CONNECTORS		Heavy Duty 3/16" Angle Flange							
MAIN FLIGHTING	9" OD x 7 GA Stretch	at Critical Transfer Points)							
FLIGHTING SHAFT	High Strength 2" OD x 11 GA Tubing								
UPPER BEARING	1 ¼" Pillow Block Greaseable Ball Bearing								
LOWER BEARING	1 ½" Pillow Block Greaseable Ball Bearing								
TUBETRUSSING	3/8"	Aircraft Type Galvanized Steel	Cable						
HYDRAULIC LIFT		4" Single Acting Cylinder							
UNDERCARRIAGE	4" x 8" Scissor Lift								
AXLE	3" x 6" Tubing								
HUBE	6-Bolt Agricultural Type								
TIRES	16" TRF								
PTO SHAFT	14E Constant Velocity	14E Constant Velocity with One Shear Bolt 35E C with							
PARKING JACK	2000 LB side wind								
SPROCKET + CHAIN	#60								
LOW PROFILE HOPPER HEIGHT									
PSI REQUIRED TO RAISE AUGER	1200 PSI	1400 PSI	1600 PSI						
HP REQUIRED (WITH DRY WHEAT)	60 HP	65 HP	75 HP						
WHEELTHREAD	132"	132"	132" - 180"						
TRANSPORT HEIGHT	13' 8"	13' 4"	13' 4"

### Hutchinson | Mayrath is an AGI Brand.

AGI is a leading provider of equipment solutions for agriculture bulk commodities including seed, fertilizer, grain, and feed systems with a growing platform in providing equipment and solutions for food processing facilities. AGI has manufacturing facilities in Canada, the United States, the United Kingdom, Brazil, South Africa and Italy and distributes its products globally.
