

# Bulk-Flo™

Rugged & Versatile

# BULK-FLO

## DEPENDABLE PERFORMER FOR THE MOST SEVERE APPLICATIONS

The TRAMCO Bulk-Flo™ heavy-duty chain conveyor is built to work in processing applications handling materials including wet and sticky, varying sizes and densities and abrasive or corrosive materials.

The unsurpassed quality and durable construction of the Bulk-Flo conveyor series assures years of dependable service under the most severe conditions.

Each system is individually designed for your specific application. Our standard components that are robot welded in jig fixtures provide interchangeability and smooth operation. All head and tail sections are maintenance friendly and wear parts are easily replaced.

# LO™

## Standard Head with Cover

Heavy-duty long life pillow block roller bearings

Standard packing gland shaft seal

**1**

## Standard Head without Cover

Double-life walking tooth split sprocket

**2**

Easily replaceable head carryback (or chain stripper)

**3**

Standard totally bolted construction with grade 5 cadmium plated bolts

**4**

3 Mil Powder Coating

**5**

Standard packing gland shaft seal

**6**

## Standard Tail

Heavy-duty frame with Rex "ZT" center pull take-up bearings

# TYPICAL ARRANGEMENTS OF BULK-FLO™ CONVEYORS FOR VARIOUS APPLICATIONS

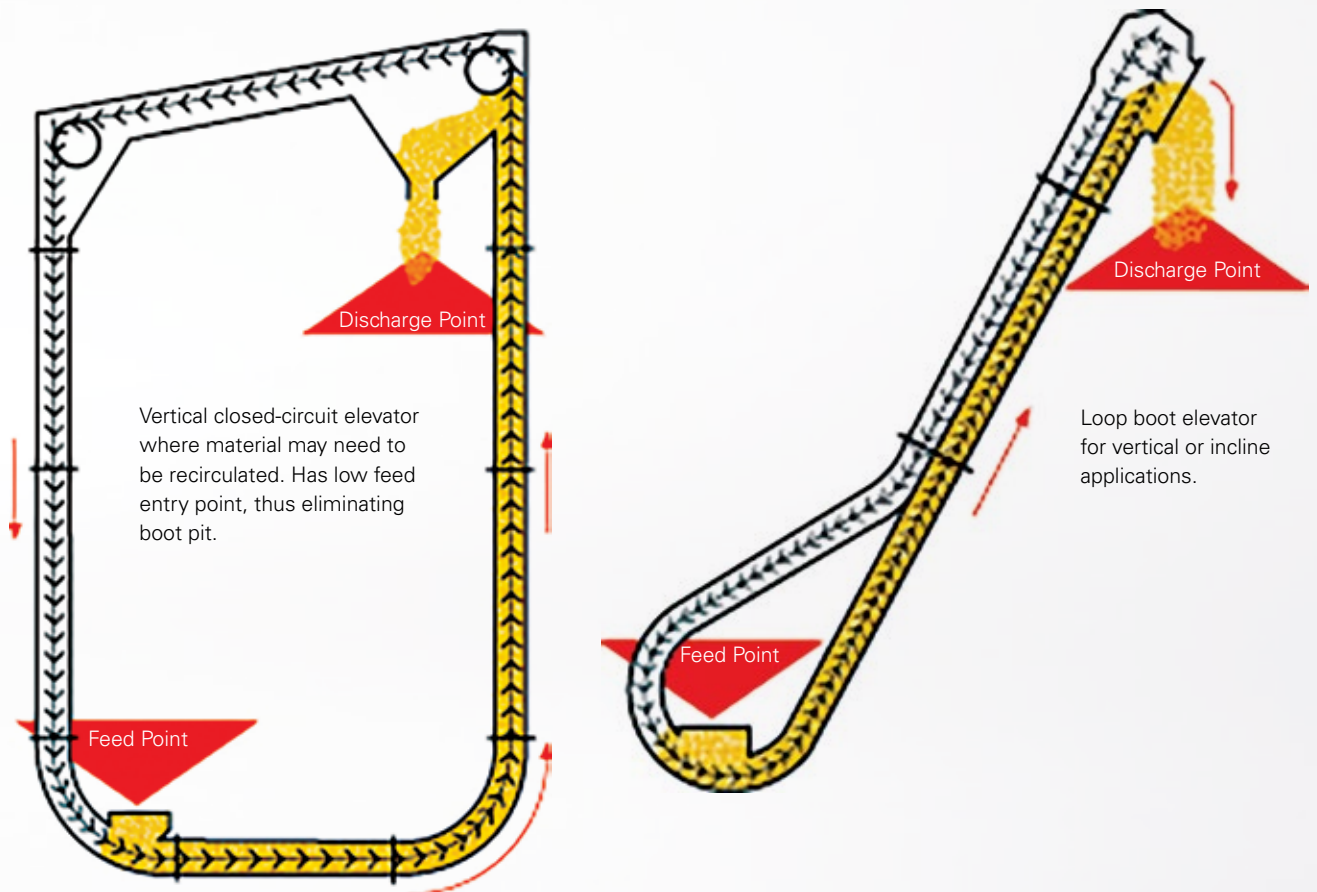

Horizontal conveyor which carries material in both upper and lower runs, will convey full length in both directions.

Horizontal conveying with multiple self-feeding inlets and multiple outlets.

# THE WORLD'S MOST COMPLETE LINE OF CHAIN & ENCLOSED BELT CONVEYORS

TRAMCO conveyors and elevators, *The Quiet Ones* (italicize this) have become the standard of the industry. They are designed, engineered and built for hard work and long life. All models feature non-metallic flights for lower noise levels, minimal maintenance and downtime.

**1**

## **TRAMCO BUCKET ELEVATOR**

THE WORK HORSE

Centrifugal Discharge design is used for the bulk handling of free-flowing fine and loose materials with small to medium size lumps. Built-to-last for the toughest requirements.

**2**

## **TRAMCO JETBELT™**

AIR SUPPORTED BELT CONVEYOR

An efficient system requiring less horsepower than other systems. Used for dry bulk handling requirements in a variety of products.

**3**

## **TRAMCO MODEL RB**

Designed for self-cleaning and quiet operation with a u-shaped trough for handling soft stock or materials that are easily crumbled or broken.

**4**

## **TRAMCO MODEL G**

Built standard with 10-gauge construction to accommodate large capacities of free-flowing materials. Provides years of trouble-free service under extreme applications.

**5**

## **TRAMCO BULK-FLO™**

The heavy-duty chain conveyor designed specifically for processing applications such as; wet and sticky, varying sizes and densities and abrasive or corrosive materials.

**Tramco is an AGI Brand.**

AGI is a leading provider of equipment solutions for agriculture bulk commodities including seed, fertilizer, grain, and feed systems with a growing platform in providing equipment and solutions for food processing facilities. AGI has manufacturing facilities in Canada, the United States, the United Kingdom, Brazil, South Africa and Italy and distributes its products globally.
